

But
- Tried valiantly to tie you & Tribus together for at least a moment. It didn't work.

- Briefing went very well -- Tribus was most knowledgeable as in S & T Asst & Secy.
- Am sure we've gained another friend. Wally

Thanks for feedback.
My apologies for missing.
Hope to meet him next time.
trip. Glad it went well.
Cheers.

My own
You'll recall I spoke to you re: Ass't Sec'y/Commerce ^{for Sec'y, Dept. of}
Tribus, who "sits" over Patent, ESSA & Weather. I asked for
guidance on whether to handle him separately or as part of an up-
coming ARGO briefing here at NPIC. Your conclusion was to include
him in group.

He could not come to the group briefing (which turned out
very well) and we'll have to handle him separately on March 27th
10-12 A.M. He'll receive the same briefing (a description of how
NPIC handles a KH-4 mission - in order to assist these chaps in
planning different but similar activities of ERTS satellite).

Tribus' briefing on the 27th is on a Friday and you would
probably not be here at 10:00 A.M. If you are available later and
Tribus is still here you might step into Green Room and shake hands.
(Assuming you're in town).

STAT

~~WRL~~

~~Will be happy to meet Tribus
when return from Langley
circa 11:15. Please feel free
to bring him in for general
discussion.~~
